

Trophy Ridge Ranch is about 1100 acres; almost 800 acres under high fence in the Red River Breaks of Montague County. Located near Saint Jo, Texas, about 20 miles west of Gainesville on US Highway 82, the wooded hills and valleys are ideal habitat for growing big whitetails. All guests are accompanied by experienced guides and most trophies are taken from large, comfortable blinds. Your trophy buck will be professionally cared for, start to finish.

Every year some of our guests harvest trophy bucks in excess of 200" and many 160-190" bucks as well.

Trophy Ridge Ranch also has gold medal class fallow bucks.

Processing

Famous German sausage and complete package processing are available in nearby Muenster. Our guides will cape your trophy taxidermy ready. Boxed antlers and hide can be taken as luggage.

Our local taxidermist, Legendary Taxidermy, is outstanding and they will get your trophy mounted within a reasonable time period.

Our guides are experienced at field judging deer. They will give you their best estimate of a trophy buck's score, but the hunter is responsible for making the choice whether or not to shoot. An official scorer will measure to determine fees.

Guides work for tips and if they have done well, 10-15% gratuity is normally accepted practice.
